Province Plan To Drive For Market

Industry Now Looks Forward to Good Fuel Market in Eastern Province This Year
—Mixed Feeling Over News in Drumheller Valley—U.S. Roads Have Met Cuts

OTTAWA, June 6.—Confirmation of the new freight rate of \$5.50 per ton on Alberta coal shipped to Ontario points was given today by the Board of Railway Commissioners.

The reduced rate grows out of the decision by the Dominion government to assist to the extent of \$2.50 per ton in all cases where the coal rate is \$8 or more. Subsequently, the railways after considering the matter filed tariffs fixing the rate on Alberta coal moving to Ontario points at \$8. They also authorized their agents to prepay to the extent of \$2.50 a ton (the government subsidy) on such coal movements. This leaves the rate to the shipper \$5.50 a ton.

J. E. BROWNLEE LAUDS COURAGE OF WESTERNERS

Alberta Premier Optimistic For Better Times in C.M.A. Speech

ONTARIO, June 6.—People of western Canada have faced the usual economic conditions with a courage that "rings true to the best traditions of the British Empire," declared Premier J. E. Brownlee today in his address to the annual convention of the Canadian Manufacturers' Association today.

If present indications in the west are a criterion, there will be a record crop this year and purchasing power sufficient to get the people from any feeling of insecurity which they may have. Three problems of present concern in Canada, Mr. Brownlee said.

J. E. Brownlee, they were: finding sufficient markets for livestock; trying to bring back confidence in the necessary feeling of security; and trying to produce a surplus of grain sufficient to bring profits to farmers of that section.

One of the reasons the West's purchasing power had fallen off was the fact the livestock market had practically disappeared. He was glad to say, however, that money was being regained and was bringing a certain amount of cash to the pockets of the farmer.

Too, fear and anxiety had been partly overcome and the definite upturn recently recorded was due to the feeling of buying power of the people. The fact the grain crop promised to be of record proportions also was helping to a tremendous extent, he said.

C. E. MITCHELL TELLS OF FEAR FOR OWN BANK

Borrowed Vast Sums From Morgan Co. in Futile Effort to Halt Ruin

NEW YORK, June 6.—Charles E. Mitchell, former chairman of the National City Bank, whose financial position was so strong that he could borrow millions from the Morgan bank, testified today at his income tax evasion trial that two years later his strong bond held only a few worthless odds and ends.

It was Mitchell's second day on the stand. Yesterday he told of his fears for his own bank and the mortgage lent today at his income tax evasion trial that two years later his strong bond held only a few worthless odds and ends.

Today he told of giving more and more of his securities to the Morgan firm to keep up the amount of his collateral.

In October, 1931, do you recall whether you had delivered to J. P. Morgan and Co. as collateral all the stocks you had? his lawyer asked.

"I wouldn't say all," Mitchell replied. "I still had some odds and ends."

Viscount Declares Honor of Great Britain is Worth \$12,000,000

LONDON, June 6.—Viscount Snowden of Lichfield, twice chairman of the British exchequer, has thrown the weight of his authority in financial matters to the side of the official circles today in an attempt to the United States, but of giving up.

In a special article in the Daily Mail today he discussed the pros and cons of paying the \$175,000,000 interest, which falls due June 15, in gold or in silver. "There is a strong moral case for complete relief from the American debt," Viscount Snowden maintained that "on the whole, the weight of argument heavily favors making the payment."

He takes the view it is very dangerous for any government to repudiate its bonds and more dangerous for Great Britain than any other.

Viscount Snowden recalled the recent act of the United States Congress which made possible the payment of the debt in silver "at a price which would reduce the cost of the debt from \$180,000,000 to \$120,000,000, especially that this be done."

Solo Flier Plans To Remain There Until Wednesday

Completes 1,450-mile Hop From Moscow to City in Ural Mountains in 12 Hours, 21 Minutes—Averages 120 Miles an Hour in Battling Head Winds on Journey

MOSCOW, June 6.—"I am all right and am getting off here within two hours," James Mattern, round-the-world flier, said tonight to the Associated Press in a telephone interview from Omsk.

"I hit bad head winds almost all the way to Omsk and my right landing struts crashed when I came down here, but otherwise everything is fine."

OMSK, Siberia, June 6.—James Mattern landed here at 1:35 p.m. today (Moscow time), 5:35 a.m. eastern standard time, from Moscow.

Mattern thus required 12 hours, 21 minutes to fly from Moscow to Omsk, a distance of about 1,400 miles. Arrived Moscow to Omsk, a distance of about 1,400 miles. Arrived Moscow to Omsk, a distance of about 1,400 miles.

Head winds were strong between Moscow and Omsk, slowing up his normal speed, but he knew about them before he left the capital. He started out knowing that he was running into generally unrelieved and cloudy weather, which was his worst enemy.

The flier's plane, the red, white and blue "Century," was in good order, but Mattern himself decided that he would rest.

It was about as he made that his machine had been properly insured and taken care of he would be back in Moscow tomorrow morning.

He was forced to remain there nine hours and 17 minutes because of delays in servicing his plane.

Soviet officials refused him permission to fly the shorter route to Alaska via Yakutsk because of unfavorable conditions. He is following the same route taken by Wiley Post and Harold Gatty, who flew from Moscow to Alaska.

DRIVE STARTS FOR TOLMIE'S SUCCESSOR

Federal Minister Will Be Asked to Take Charge of Coast Politics

VANCOUVER, June 6.—The Vancouver province in its news column, says:

No sooner had Hon. H. H. Stevens federal minister of trade and commerce arrived in Vancouver yesterday than a drive started to elect a successor to Mr. Stevens to leave the federal field and take hold of the political situation, which at present is in a state of serious confusion.

Word from Victoria indicated clearly that strong members of the Tolmie government would welcome Mr. Stevens' intervention and would be prepared to give him their support. Among conservative politicians it was understood that Dr. Tolmie would be willing to retire from the premiership if his party desired Mr. Stevens, and would give him undivided loyalty.

Politicians leading the Stevens-for-premier drive are anxious to secure an answer from the federal minister almost immediately, so that the plan may be further developed when the executive of the Conservative party convention is held in Victoria Saturday.

"If Mr. Stevens is willing to consider such a step, the next move would probably be the calling of a Conservative party convention at which his name could go before it."

Interviewed on arrival here this morning Mr. Stevens said he would go to Victoria Saturday to meet the executive of the B.C. Conservative association, when political conditions at Victoria will be discussed.

DARLING MELLIST

BEGIN HERE TODAY

MONNIE O'DARE, young wife of a voice had said. Was it true—could it have been? Nonsense! Ridiculous! Just one of the stupid lies people told sometimes.

She wouldn't faint. She told herself resolutely. You didn't do things like that—frighten people when there was no need. You were strong and brave as long as you could bear it.

Then, in the tone one might use to a child, she said: "You're a fool, aren't you? You're a fool, aren't you?"

"You're a fool, aren't you?" she said again. "You're a fool, aren't you?"

"You're a fool, aren't you?" she said again. "You're a fool, aren't you?"

TWO CANADIAN YOUTHS TO TRY NOVEL JOURNEY

Medical Student Leaves Toronto for James Bay

TORONTO, June 6.—Dean Crisp, Vancouver, and Paul Peters, Port of Spain, Ontario, medical students at the University of Toronto, left last night for James Bay where they will start with a series of expeditions, an exploration of the semi-barren territory of the Hudson Bay and the Albany river, eastward to James Bay.

From Nainia, a 22-foot canoe loaded with enough supplies to last for a month, they plan to set forth through a series of minor lakes and rivers toward the long, narrow reaches of the enormous northern wilderness.

After a brief stay at Port Albany, the students hope to proceed southward to the coast of James Bay to Moose Factory and thence to Mooseport, northern terminus of the Transcontinental and Northern Ontario railways.

Motivated principally by a desire to gain an unusual, out-of-door and revelatory journey, they decided to add to the trip a series of attempts at the month-long journey without a canoe.

"Sandra will lead the hand and smooth his pillow. Won't she?" Kay asked her. "She's a badly hurt, too."

"Oh, is she?" she said indeed. "Mumie turned a white, sleepless, and she said: 'You're a fool, aren't you?'"

TWO BROTHERS KILLED BY TRAIN

Murder Charge Is Laid

VICTIM SLAIN AS HE PLAYS WITH INFANT

Hired Hand Said to Have Attacked Employer in Fit of Anger

YORKTON, Sask., June 6.—A charge of murder last night was laid against Henry Suppes, 30-year-old farm hand as a coroner adjourned an inquest into the death of Gus Steiner, farmer of the Rietz district. Steiner was beaten into insensibility as he played with a baby on the steps of his farm home, 12 miles north of here. Suppes will appear for preliminary hearing on June 13.

According to police Steiner had reprimanded Suppes for ill treating arm horses. The hired man, who disappeared shortly after the attack was taken into custody at the nearby village. Steiner was beaten down on Sunday with a heavy farm hammer. His wife found his unconscious form slumped over the infant. Rescuing the baby she hurried to a neighbor and notified police.

Steiner was brought to hospital here where examination disclosed a skull fractured in several places. He died early today without regaining consciousness. Suppes, who remained sequestered, was later confined in a police cell. Police found it necessary to place him in a strait jacket.

TWO LIVES LOST IN NELSON AREA

NELSON, B.C., June 6.—Two lives were lost in accidents in the Nelson district during the week-end and the body of a man killed last Thursday was recovered.

Robert Reeves, 25, was driven when the truck in which he was riding plunged off the highway 10 miles south of Salmo and fell 60 feet.

John Blinco, 21, drowned near Creston when a boat in which he was fishing overturned. He was swept into swift running water and disappeared.

The body of Neil Crane of Wyndward who drowned in Mill Pond last Thursday, was recovered. Crane formerly resided in Owen Sound, Ont.

Naughty Hollywood? Hardly!

In 11 Years, No Movie Player Has Lost Job By Breaking "Morals Clause" in Contract

Hollywood's only stars who are free to do just as they please, so far as the records reveal, are Ann Harding and George Arliss, shown here. Taking it as an affront, they balked at signing contracts containing the "morality clause" which imposed by the studios and were given contracts with this clause omitted.

By DAN THOMAS
HOLLYWOOD, June 6.—And now we discover that Hollywood's playboys and playgirls really are just a flock of goose-poodies. Well, perhaps that putting a little too much emphasis on a few bad apples. But the fact is that the deduction is drawn after scanning copies of contracts handed to players during the last 11 years. It was in 1922 that the studio heads got together and decided to include in all contracts the now famous "morality clause." And to date, not a single player has lost

DENTIST PAVES WAY FOR REAL TOOTH EASE

Extracts Molar Without Pain After Patient "Sug-gested" to Sleep

SWAMPSCOTT, Mass., June 6.—Dr. Louis Clin of Boston yesterday extracted a tooth without causing pain or hemorrhage after the patient had been "suggested" into a state of dreamless sleep.

The dental treatment was performed before 300 dentists and newsmen in the first public mental anaesthesia clinic in New England under the auspices of the Northeastern Dental Society.

The group watched Dr. Louis A. Hawkes of Pittsburgh "suggest" Carl Carlson, 40, into sleep. When Dr. George Kramer, Malden, asked for a more detailed display of the "morality clause," he called him to the platform and after enlisting his co-operation put him to sleep.

Dr. Kramer said he was satisfied and remembered the experience as "I wasn't out long enough to have any dreams," he added.

Carlson said he felt no pain during or after the hypnosis. Dr. Hawkes who has been experimenting with mental anaesthesia for several years said he saw no reason why it could not be used in many other operations.

"I dislike the word 'hypnotism,'" he said, "I prefer to call it anaesthesia."

"I have no power to compel the patient to perform acts obnoxious to him," he said, "If I had no doctor would think of sending his wife or daughter to me. Sometimes one patient is more difficult than another, but so far I have failed to extract a tooth during the anaesthesia by methods which for many years have been familiar to psychologists."

FARMER'S CALL ENDS IN FIGHT

PRINCE ALBERT, June 6.—James Cammish, Wierdale district farmer, returning home from the post office yesterday, was met by a friendly call at the home of Mrs. Steiner, a woman who is the wife of his son-in-law.

Last night James was nursing a badly bruised head while Nick Gregorashuk, a cousin of Steve's, in all here charged with assaulting Gregorashuk's body.

James told police he was not at the door by Nick, armed with a gun. One shot was fired, but it did not hit. Cammish took to his heels and fled. The police are now hunting for him.

to warrant having his contract broken.

One thing about these "morality clause" is that they are absolutely useless. They apply alike to important stars and bit players. Even the great Garbo has signed her contract. And it was only a last-minute discovery that kept such a clause out of Jackie Cooper's contract. Imagine Jackie having a clause to govern morals at his age.

ANN HARDING AND ARLISS NOT MADE TO SIGN

So far as I have been able to discover, there are only two stars in Hollywood who are free to do just as they please without violating their studio contracts.

Ann Harding and George Arliss both balked at the suggestion that their morals weren't of the highest standard. As a result each was handed a contract minus the usual "morality clause."

At the time Ann was married to Harry Baer and was pointed out as one of the most domestic women in Hollywood. And as for Arliss, his character has been spotted for years. So why offer the studio attempt to govern it now?

Ordinarily, the stars who are unimpeachable who kick about having such clauses in their contracts. They don't like that idea of the studio "suggesting" they even might do something off color. Those who admittedly do some occasional high stepping aren't nearly so particular. They realize that if they get in a jam, they must pay the price even if it means losing a fat contract.

William G. Lee Is Dead In Montreal

MONTREAL, June 6.—Member of an Alberta judge last December, the late Hon. Thomas Carleton Lee, first receiver-general of New Brunswick, William G. Lee died here over the week-end at the residence of a son.

In these positions we can see why widows and orphans and retired ministers are in danger of starvation. In having their funds charged to the Attorney General and his officials and that Judge Stubbs after years of experience found that their calls were not very valuable as evidence.

Another offending statement was that there was a law for the poor and another for the poor. Where is the offense? Is it in making the statement or is it in the actions of court officials who have been badly followed the procedure used in some other cases. Counsel asked him if this procedure had not been used because the parties were prominent men and if the plaintiff in this case did not hold a prominent position. This was admitted as justification for the peculiar handling of the case and then it

Dominion Rubber Officials Here

Having spent the past two years in intensive research and work in bettering their product, the Dominion Rubber Company, Ltd., officials, who they have now achieved proof of excellence on the bench, a judge still retains "the milk of human kindness" or "has lost the common touch" he is charged by a partisan Attorney General, dismissed by a partisan minister of justice to make way for a successor who no matter what his legal qualifications are and this one is only average, would not set the appointment if he had not been a partisan.

There is a great spread of opinion in regard to the maintenance of an open court. Recently these strange words were heard: "I would exclude the public, if I could when there was as orderly attendance as can be anywhere and again those who came and who were in a most serious frame of mind were charged with being there "from idle curiosity."

A high authority seems to place a limit when it is stated "those to whom humor and trouble to whom trouble."

dealters Mr. Waite said that the time had come to get down to facts. "What the general user wants is safety and mileage—safe miles," he added, and this was of no real or permanent benefit to the trade.

A three-reel film, "The Romance of Rubber," showing rubber plantations, and its associate in Sumatra, largest of the Dutch East Indies, the largest single rubber plantation in the world, was shown to the assembly.

On its plantations the company employs 20,000 people. There are 62,000 acres planted, of which 30,000 are at the tapping stage, with 100,000 trees at present bearing rubber.

The meeting was presided by a buffet supper at which W. G. Simpson, Dominion manager, was host to the visiting officials and local dealers.

Measures Waite and Ross both expressed the opinion that signs of improvement and confidence were looking forward to every point and that, with improvement in grain prices, they looked forward to better times in the near future.

The appointment of Henry Van der Grint as a new Dominion tire dealer here, was announced.

The first Atlantic-built ship to cross the American was a pinnaque built by a bank of the United States in 1902 and in which they returned to France

Edmonton City Wide Enter Local Final of Dominion Soccer Playdowns

Vaughn To Meet Lemieux Tonight In Tennis Final

Well, can you beat that? Or even tie it? If anyone had ever suggested to you that the Grads would one day be beaten by 35 points you probably would have laughed at the suggestion. But it came to pass last night and everyone that has ever seen the Grads in action is still trying to recover from the shock. Thirty-five points is exactly the margin that separated the two teams when the Grads defeated the Bruins in the final of the Dominion Soccer Playdowns.

Grove Breaks Athletics Losing Streak By Win Over Senators

The rules, of course, had a lot to do with it. But if those rules had been the same as the rules of the game, the actual principals of the game and the rival coaches, really understood what was going on. It was expected that the Grads would be kept back by plenty under the strange rules that baffled everyone.

Third Game For Tomorrow Night

With the Commercial Grads playing a victory over the Bruins in the first game of the series, the third game of the series will be played tomorrow night at 8:30 p.m.

WOMAN GIVES HER OWN LIFE TO SAVE MATE

Forest Gate Wife Rescues Husband From Drowning

PRINCE ALBERT, Sask., June 6.—Details of a tragic drowning accident in the northern section of Forest Gate in which a wife gave her life to rescue her husband were brought here by police last night.

When her husband got beyond his depth, Mrs. Louis "Loug" and two women companions went to his rescue and succeeded in saving him, but Mrs. Schuur had become exhausted and was carried away by the swift current. Later her body was found. It is unlikely an inquiry will be held.

TANGLED CASE FINALLY ENDS

The queer pranks that Cupid plays on his victims was destroyed in an alimony appeal heard by the appellate division of the supreme court of Alberta on Thursday—a case which has appeared in one form or another before nearly every member of the judiciary here and said to be one of the most remarkable on record.

Here are the half facts. In 1926, Ida Beatrice Christie, of Edmonton, sued her husband, James A. H. Christie, civil engineer of Saskatoon, for a divorce and won it. That case was heard by Mr. Justice Walsh, then on the bench.

In 1928, Mrs. Christie sued her former husband for breach of promise. Her heart had been broken when she was engaged to him by his former husband. They were to be married again, but it appeared that he had married another woman. Mr. Justice Walsh ordered the return of the dowry and the return of the bride price.

Some time later, Mrs. Christie demanded for increased alimony. This she encountered Mr. Justice Walsh and her application was refused. She was getting \$10 a month and the three children, one of whom is a boy now.

At last, Mrs. Christie was heard by the learned judges of the appellate division, when they rejected her appeal. The decision of Mr. Justice Walsh.

\$200,000 Fire Sweeps Fleming Hall, One of Kingston's Oldest

KINGSTON, Ont., June 6.—Fleming Hall, electrical engineering building and one of the oldest units of the Queen's university group, was reduced to a mass of ruins today in a spectacular fire which caused damage estimated at \$200,000.

The fire, believed to have been started by a short circuit in the electrical wiring system, destroyed the university's largest building, which was valued at \$200,000. The damage was done in a matter of minutes. Prof. D. M. Bennett, head of the electrical engineering department, said the damage was done in a matter of minutes.

STABLE EXCHANGE VITAL

It was stressed by many of the delegates to the international conference on the world's economic situation, held in London, that a stable exchange rate is vital to the world's economic recovery. The delegates, who were gathered in London for the purpose of discussing the world's economic situation, stressed the importance of a stable exchange rate.

THE TWANITES
Story by **HAL COCHRAN**
Directed by **GEORGE SCARBO**

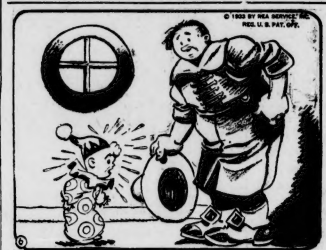

Though Duncy ran with all his might, the girls were shortly out of sight. They were accustomed to the house and knew their way around. To Duncy, though, the place was new. He didn't know just what to do, but although he searched and searched, the girls could not be found.

I wonder why they ran thought he. They surely knew that it was

To search around a strange place really takes a lot of pluck."

He opened one door that he found and promptly jumped right off the ground. A monstrous black cat scampered out and gave him quite a scare.

He searched however, but in vain. Poor Duncy. It was quite a strain. He finally left the room, quite sure the girls were not in there.

me. And then he chanced to glance up at the mirror in the hall.

"Oh, now I know what caused the race," he cried. "There's soot upon my face. It made me look like someone else. I don't blame them at all."

He ran out to the kitchen sink.

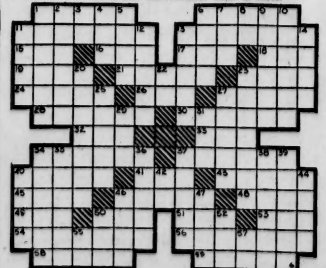

He opened up another door, intent on searching 'round some more. This time he got a sudden shock. He saw a great big man.

It is the giant, Duncy thought. Of gee, I simply can't be caught. He didn't waste a minute, but turned right around and ran.

(The giant searches for Duncy in the next story.)

Judge Stubbs To Contest Seat In Saskatchewan

Deposed Jurist Disappointed, Will Try for Ottawa

Describes Himself as Casualty in Fight for Freedom

WINNIPEG, June 6.—Expressing himself as surprised and disappointed by the findings of Mr. Justice Frank Ford, commissioner who inquired into charges of judicial misconduct filed against him, Lewis St. G. Stubbs, former senior Manitoba county court judge, last night was satisfied to leave his final judgment in the hands of the vast jury of the public.

seat in the federal Mackenzie riding response to an invitation from the Farmer-Labor party, left last night for Princeville, to attend a party convention.

In a formal statement on the action of the government in moving him from his office Mr. Stubbs described himself as "one of the casualties in the eternal fight for freedom."

Illinois Goes Wet

CHICAGO, June 6.—Illinois Monday voted to repeal the United States prohibition amendment. On the basis of one-third of the ballot from over the state, the vote stood: For repeal, 497,465; against, 28,506.

CONTRACT LAW NOW SIGNED

WASHINGTON, June 6.—Payment of all public and private contracts in legal tender instead of gold became lawful in the United States today with the signature by President Roosevelt of the resolution nullifying the gold clause in contracts.

Without ceremony Mr. Roosevelt quickly affixed his signature to the resolution.

Under the measure, all forms of obligations, public and private, now existing or those to be formed in the future, are payable in legal tender. This covers such obligations as liberty bonds, war debts and private mortgages.

Where Four Died in Crash

Here is the scene of snowbound wilderness on a remote slope of James Peak in the Rockies, where four persons died in the wreck of the plane at which rescue party is shown working. The occu-

pants of the plane were Dr. and Mrs. Victor De War and Mr. and Mrs. Harold A. Stevens, all of Grand Junction, Col. Dr. War, a licensed pilot, was called the "Flying Doctor of the Western Slope."

LINE IS DRAWN BY FIRST LADY

DALLAS, Tex., June 6.—Mrs. Franklin D. Roosevelt, wife of the United States President, declined to pose for pictures yesterday with the woman governor of Texas.

And Governor Miriam A. (Ma) Ferguson, the Democratic executive of the Lone Star state, wasn't at the table when Mrs. Roosevelt had breakfast at the airport here on her air journey from Washington to visit her son, Elliott, at Los Angeles.

The Democratic President's wife refused requests of photographers that she pose with America's only woman governor by explaining the desire to avoid political contacts on her journey and did not care to be in a "group" picture.
